

Course Title:	Reproductive System
Course Code:	REPR314
Program:	Bachelor of Medicine and Bachelor of Surgery (MBBS)
Department:	Basic Medical Science
College:	College of Medicine
Institution:	Al Maarefa University

Course Identification

1. Credit hours:	5 hours							
2. Course type								
a.	University	<input type="checkbox"/>	College	<input checked="" type="checkbox"/>	Department	<input type="checkbox"/>	Others	<input type="checkbox"/>
b.	Required	<input checked="" type="checkbox"/>	Elective	<input type="checkbox"/>				
3. Level/year at which this course is offered:	Year 3 - Level 6							
4. Pre-requisites for this course (if any):	ANAT214 – PHSL215 – PATH216 Blocks							
5. Co-requisites for this course (if any):	None							

Course Objectives

1. Course Description REPR 314 course deals with the anatomy & histology of the reproductive system organs in males and females along with the embryological development including congenital anomalies. The Physiological changes and Biochemistry of hormones associated with the system are also covered. Major diseases and different microbes affecting the reproductive system and principles of management are also part of the course.
2. Course Main Objective This course aims to impart an understanding of the structure, function and pathologic dysfunction of the reproductive system and to develop the necessary knowledge base to diagnose different diseases/lesions, various pathogens involved, and relevant pharmacology related with reproductive system.
