

<b>Course Title:</b>	<b>Urinary System Block</b>
<b>Course Code:</b>	<b>URIN313</b>
<b>Program:</b>	<b>Bachelor of Medicine and Bachelor of Surgery (MBBS)</b>
<b>Department:</b>	<b>Basic Medical Science</b>
<b>College:</b>	<b>College of Medicine</b>
<b>Institution:</b>	<b>Al Maarefa University</b>

### Course Identification

<b>1. Credit hours: 5 hours</b>								
<b>2. Course type</b>								
a.	University	<input type="checkbox"/>	College	<input checked="" type="checkbox"/>	Department	<input type="checkbox"/>	Others	<input type="checkbox"/>
b.	Required	<input checked="" type="checkbox"/>	Elective	<input type="checkbox"/>				
<b>3. Level/year at which this course is offered: Year 3 - Level 6</b>								
<b>4. Pre-requisites for this course (if any):</b>								
ANAT214 – PHSL215 – PATH216 Blocks								
<b>5. Co-requisites for this course (if any): None</b>								

### Course Objectives

<b>1. Course Description</b> This Course deals with detailed anatomical, embryological, functional and biochemical characteristics of the organs of the Urinary system. Also includes detailed description of various non-neoplastic and neoplastic diseases as well as different microbes causing diseases of the Urinary system
<b>2. Course Main Objective</b> The aim of this block is to impart a comprehensive understanding of the urinary system with respect to its embryological development, structure, histology, functions, pathologic and biochemical dysfunction and their medical management; and to develop the necessary skills to identify normal and abnormal microscopic features.
