

Abstracted Biography

I'm Sami Abdalla, **Clinician** and **Assistant** Professor of **Dermatology** and **Physiology** work in academic and health services career since graduated at Omdurman Islamic University, 1999. After completing the internship I joined the Federal ministry of health-Sudan as GP for two years then was appointed as a teaching assistant at Elrazi University, 2004. I taught **physiology** to the medical, medical allies and postgraduate students. I'm an **adjunct professor** at **Sudan Medical Specialization Board** since 2010. I Earned the **MSc** of Human physiology from Khartoum University, the **MD** of Dermatology and Venereology from SMSB and the **Ph.D.** of Human Physiology from Gezira University. Now I am acting as a clinical and assistant professor of dermatology at **Almaarefa faculty of medicine (KSA)** with a special interest in laser applications; strengthened by **PGDCC (Cosmetology) Diploma** from the **Indian Institute of Laser and Aesthetic Medicine**. Beside academic duties I have a great interest in **research**, I have many **published papers** and ongoing researches in dermatology, genetics, neurology and neurophysiology and supervising many final medical students in their researches.

Now I'm the **Head of the clinical department** at Almaarefa faculty of medicine and a member the **faculty board**.

Sami Fatehi Abdalla Billal MBBS, MSc, MD, Ph.D., PGDCC

I. Personal Details:

Date of birth: January 1, 1973

Country of birth: Sudan

Nationality: Sudanese

Communication and Skills: I speak Arabic and English fluently, and have good experience in Microsoft applications

Mobile number: 00966538199174

Email samibillal@gmail.com

II. Education/Postgraduate Training:

1. The Islamic University of Omdurman- Faculty of Medicine

Degree: Bachelor of Medicine and Surgery

Date of graduation: 1999.

2. University of Khartoum- Postgraduate collage

Degree: Master of Human Physiology

Date of graduation: 2006

3. Sudan Medical Specialization Board

Degree: MD in Dermatology & Andrology

Date of graduation: 2013

4. Gezira University – Faculty of Medicine -Postgraduate College

Degree: Ph.D. in Human Physiology

Date of graduation: 2017

6. Indian Institute of Laser and Aesthetic Medicine

Degree: Post Graduate Diploma in Clinical Cosmetology

25-April-2017

III. Medical licensures:

1. **Sudanese Medical Council** - dermatology Specialist. Registration No. 264.

2. **Saudi Commission of Health Specialties** - Senior Registrar of Dermatology, Registration No (16-R-M-0003489).

3. **Dubai Health Authorization** – Eligibility Letter Ref: DHA/LS/912017/676620.

IV. Board Certification:

Clinical MD in Dermatology and Venereology

V. Recent Positions, Academic Rank and Administration Responsibilities :

- 1- Head of Clinical Department Almaarefa Faculty of Medicine-Riyadh- KSA
- 2- Member of Faculty board – Faculty of Medicine
- 3- Assistant professor clinical physician of Dermatology
- 4- Dermatology Specialist at Khartoum Dermatology Hospital
- 5- Adjunct professor at Sudan Medical Specialization Board- Dermatology Board -Khartoum - Sudan
- 6- Member of Research Committee
- 7- Member of Curriculum Committee
- 8- Member of Accreditation Committee
- 9- Head of Coordination Office between Almaarefa Colleges and Sudan Medical Specialization Board

VI. Previous Professional Positions:**1- Houseman Doctor:**

To provide an adequate assessment of the patient's condition, based on clinical history and examinations under supervision of senior doctors- January 2000 to May 2002 , Federal Ministry of Health-Sudan

2- Medical Officer :

To provide an adequate assessment of the patient's condition based on clinical history and examinations under the supervision of unit consultant - June 2002 to 2006. Department of Medicine-Ibrahim Malik Teaching Hospital –Ministry of Health- Khartoum State

3- Medical Program coordinator :

Elrazee Collage for Medical Sciences- preparing medical college courses schedule, conduct collage meetings and establish specific work groups and subcommittees as needed.2004 to 2005

4- Lecturer in physiology :

Teach undergraduate medical and health allies' students and postgraduate clinical nutrition and nurse master students11-2006 to 2012-03 – National Ribat University-Khartoum-Sudan

5- Lecturer in physiology:

Teach undergraduate medical and health allies' students August 2008 to now - International University of Africa

6- MD student of Dermatology:

To provide an adequate assessment of the patient's condition based on clinical history and examinations-January 2010 March 22, 2012 Khartoum Dermatology and Venereal Diseases Teaching Hospital

7- Dermatology Specialist:

Khartoum Dermatology and Venereal Diseases Teaching Hospital.

VII. Clinical and Academic Workshops and Appointments:

1. The 22nd Derma Day Symposium Practical Tips in Dermatology- 20/10/2017
2. Sclerotherapy & Leg Vein Management Workshop- 14/05/2017
3. Clinical Cosmetology Training Course - Indian Institute of Laser and Aesthetic Medicine-Pune- 25/April /2017
4. Simulation Masterclass for EMS Educators-March 2017, 25- Almaarefa Colleges.
5. Principles of Scientific Research- February 2017,12-Almareefa Colleges
6. 19th Derma Day- The Ritz-Carlton-November 2016,25- Riyadh
7. LASER 2016: Update & Controversies- Marriot Hotel- November 2016, 18- Riyadh
8. Training Course on Statistical Application using PSPP package-Almaarefa Colleges-November 2016, 15-16- Riyadh.
9. Psoriasis Update Symposium- Holiday Inn - November 2016, 15- Riyadh
10. Update in Internal disease management – 1st Conference- Saudi German hospital – October 2016, 20-21- Riyadh.
11. Saudi Health Congress- May 2016, 18- Riyadh
12. Saudi International Medical Education Conference (SIMEC), April 2016, 10 - Alfisal University- Riyadh
13. Preconference-Saudi Medical Education Conference-SIMEC- April 2016- Alfisal University- Riyadh.
14. Base Team Learning implantation in medical curriculum workshop International University of Africa - 24th of October 2014

15. Curriculum development and enhancement workshop, Khartoum, Sudan, Alneelain University- faculty of medicine- 26-27 March-2014.
16. Research Ethics workshop- Paradise Hotel- Khartoum- Sudan-23-25 February 2014 - Maryland University.
17. Research Preparatory Course –Alexandria University – Egypt- Faculty of Medicine from 17th February to 19th May, 2013.
18. Biobone first conference – Medical Biochemistry Department – Almwasaa Hospital –Faculty of Medicine – Alexandria University – April 25, 2013.
19. Participated in the 14th Conference of Sudanese Association of Dermatologists-29to 31 January 2013 at Alslam Rotana-Khartoum- Sudan
20. Member of Sudanese association of sexology and infertility – participated in the 1st Scientific Conference- Alslam Rotana- August-2013
21. Participated in the 13th Conference of Sudanese Association of Dermatologists 29to 31 March 2011 at Alslam Rotana-Khartoum- Sudan
22. Better multiple-choice item-writing -University of Khartoum- Faculty of Medicine-Soba University Hospital-2009.
23. Planning and Producing an OSCE - the University of Khartoum- Faculty of Medicine-Soba University Hospital-2009.
24. Workshop of Molecular Diagnosis of Endemic Diseases- held in molecular biology laboratory- National Ribat University on 9th October to 16th October 2008.
25. How to ensure that Technology can enhance learning - the University of Khartoum- Faculty of Medicine-Soba University Hospital-2007.
26. Making The Best Use of a One-hour Lecture-University of Khartoum- Faculty of Medicine-Soba University Hospital-2007.
27. Continuous Assessment-University of Khartoum- Faculty of Medicine- Soba University Hospital-2007.
28. Completed the Chaperon training course in accordance with the international standards for testing. Sudan Olympic Committee Medical Commission.10 - 12 September 2006.
29. Problem Based Learning (PBL) International University of Africa-2006.
30. Completed the intensive course on Research Proposal Development - Nile Valley University-Atbara on 27th October to 6th November 2007 by

Committee of Medical and Health Sciences & General Directorate of Training- Ministry of Higher Education.

31. Development workshop on Community-Oriented Medical Education- International University of Africa-2006.

32. Curriculum review and development of Medicine program-Elrazi College of Medical and Health Sciences – 2005.

VIII. Researches Activities:

In addition to my supervision of many medical students I have many published and in press papers

1. Dermatological Clinical Teaching of Undergraduate Medical Students Using Selected Patients and Cases Scenarios in the Classrooms versus Hospital Clinics Based Teaching- Abstract Presentation–SIMEC2018-Riayadh(1st -5th April)
2. The Methylene Tetrahydrofolate Reductase Gene Variant C677T is not associated with Migraine in Twelve Sudanese Pedigrees with Migraine: Ibrahim SMH, Magzoub MSE, Abdalla SF, Mohamed HS, Ibrahim ME (2018). J Neurol Stroke 8(2): 00279. DOI: 10.15406/jnsk.2018.08.00279.
3. Role of Elisa as a Confirmatory Diagnostic Test for Patients with Clinical Pemphigus Vulgaris- In PRESS.
4. The clinical teaching of dermatology for undergraduate medical students using selected patients and cases scenarios in the classrooms versus hospital clinics based teaching. In PRESS .
5. Clinical Characteristics of Migraine in Twelve Sudanese families. ELmagzoub MS, Ibrahim SMH, Abdalla SF (2017) . J Neurol Stroke 7(5): 00250. DOI: 10.15406/jnsk.2017.07.00250.
6. Abnormal Circle of Willis among Migraineurs in Sudan. Ibrahim SMH, Magzoub MSE, Nour AM, Nurein MS, Abdalla SF, et al. (2017). J Neurol Stroke 7(7): 00264. DOI: 10.15406/jnsk.2017.07.00264.
7. Neurophysiologic Pattern and Severity Grading Scale of Carpal Tunnel Syndrome in Sudanese Patients- Journal Of Neurology and Neuroscience ISSN 2171-6625-VOL 8No4: 213- DOI: 10.21767/2171-6625.1000213- January 2017.
8. Clinical Presentations and Factors Responsible for Delays in Diagnosis of Juvenile Myoclonic Epilepsy among Sudanese Patients- Journal Of Neurology

- and Neuroscience ISSN 2171-6625-VOL 8No4: 209- DOI: 10.21767/2171-6625.1000213- Apr 2017.
9. Usefulness of Enzyme-Linked Immunosorbent Assay (ELISA) for Early Diagnosis of Pemphigus in Sudanese patients- Poster Presentation at 14th International Conference of the Saudi Society of Dermatology and Dermatologic Surgery- 11-13 May, 2017 in Riyadh, Saudi Arabia.
 10. EEG Characterizations and Clinical Features in Sudanese Patients with Panayiotopoulos Syndrome- International Neuropsychiatric Disease Journal- 5/May/2017.
 11. Juvenile myoclonic epilepsy among Sudanese patients: Prevalence and EEG characterizations- Journal of Neurology and Stroke-6(4)10/4/2017.
 12. Morbidity and Mortality of TEN/SJS among Sudanese Patients-European Journal of Pharmaceutical and Medical Research - 2017,4(03), 528-532.
 13. The outcome of Adapalene and Isotretinoin in the Treatment of Acne Vulgaris British Journal of Medicine & Medical Research, 12(10): 1-9, 2016, Article no.BJMMR.22385- (3-12-2015).
 14. The Patients Infected with Helicobacter pylori are Susceptible to Idiopathic Chronic Urticaria- British Microbiology Research Journal 11(4): 1-7, 2016, Article no.BMRJ.17664-(11-11-2015).
 15. The Frequency of Dermatological Diseases in Insulin Dependent Diabetic Sudanese Children- SAS J. Med., Volume-1; Issue-3 (Sep-Oct, 2015); p-73- 79 Available online at <http://sassociety.com/sasjm/>.
 16. Serum Albumin Level in Severe Malnourished Children- Asian Journal of Biomedical and Pharmaceutical sciences-(11-12-2014).
 17. Evaluation of Milk as A source of Human DNA in Lactating Women Using Polymerase Chain Reaction. International Journal of Molecular Medicine and Advance Sciences 5 (1): 6-9, 2009.

IX. Running Research Activities and Students Supervision:

- 1- The frequency of dermatological disease among patients presented at primary health facilities in Riyadh.
- 2- Practicing and Awareness of Almaarefa Employees towards Dermatological Diseases.

X. Editorial and Reviewing Participations:

1. Clinical Dermatology Open Access Journal (ISSN: 2574-7800)
2. Journal Of Neurology and Neurosciences (ISSN 2171-6625)
3. Annals of Medical and Health Sciences Research (ISSN 2277-9205)
4. International Journal of Child Health and Nutrition
5. Neurology & Neurotherapy Open Access Journal
6. Skin Diseases and Skin Care (<http://skin-diseases-and-skin-care.imedpub.com>)

XI. Teaching Activities:**1. Physiology:****1.1. Physiology (Fulltime Appointments):**

I have taught physiology and conducted related practices to medical, dentistry and nutrition master students, for the following courses:

1. Man and Environment.
2. Cardiovascular system.
3. Respiratory system.
4. Gastrointestinal system.
5. Blood.
6. Endocrine and reproductive systems.
7. Nervous system.
8. Musculoskeletal system.

I taught physiology for *Sudan Medical Specialization Board* (SMSB) postgraduate MD students, (Basic Sciences Course Core 1) from March 2010 up to 2014.

1.2. Physiology (Visiting and Part-time Appointments):

- 1- Teaching physiology in preparatory course of basic sciences for MD students – Almaarefa Colleges
- 2- Par timer, Islamic University of Omdurman-Pharmacy collage, 2009- Now

- 3- Par timer, National Ribat University, 2010, Now
- 4- Par timer, Almogtarbeen University, the physiology coordinator 2012 – now
- 5- Lecturer-par timer, Upper Nile University, 2009, 2011
- 6- Visitor lecturer, Ahfad University of Women, 2011- Now
- 7- Regular Visitor lecturer of physiology, Fashir University(Dar Fur), 2010-2013
- 8- Visitor lecturer of physiology, Dongolla University , 2012-2014
- 9- External Examiner, Nile Valley University, 2006 - NOW
- 10- External Examiner, Upper Nile University, 2009- 2010
- 11- External Examiner, Kassala University, 2007- 2008

2. Dermatology:

- 1- Undergraduate medical students.
- 2- Residents of dermatology - Sudan Medical Specialization Board - Since February 2014 to August

XII. Professional Memberships:

Membership of Sudanese Association of Dermatologists (SAD)

Member of African teledrem.Org

Membership of Sudanese Association of Physiologists
